

Mgr. Kamila Kulhánková

Managing Associate

Kamila Kulhánková specialises in the public sector, in particular public procurement law, with a strong focus on architectural and urban design contests.

In the field of public procurement, she provides comprehensive legal advice to both contracting authorities and suppliers, supporting them in the preparation of award procedures, as well as throughout their process, and in subsequent stages.

Her core expertise lies in design contests in all their forms, both in the public and private sectors, including national and international contests. Kamila is involved in their comprehensive preparation and organisation. In various roles — as contest secretary or legal adviser — she has taken part in more than twenty contests over the past ten years.

A significant part of her practice also involves negotiated procedures without prior publication that follow design contests, in which she represents both contracting authorities and architects. At this stage, Kamila focuses primarily on negotiating the draft contract and setting contractual terms so that they reflect the design entry while ensuring its high-quality implementation.

She also provides comprehensive legal advice to architects and design teams throughout the entire design contest process — from deciding whether to participate, through supporting the preparation of design entries and communication with the contracting authority, to handling subsequent contractual relationships.

Projects

- Comprehensive organisation of the design contest and the subsequent negotiated procedure without prior publication, titled “Administrative Building of the Lesy České republiky Headquarters” Preparation of a major international architectural design contest for the new headquarters of Lesy České republiky in Hradec Králové; role in the contest: legal advisory
- Legal advisory during the design contest and the subsequent negotiated procedure without prior publication titled “Project and Engineering Works for the Modernisation of the Regional Hospital Liberec a.s.”, which followed the design contest titled “Modernisation of the Regional Hospital Liberec”; co-organization of the design contest; role within the contest: legal advisory
- Comprehensive organisation of the design contest and the subsequent negotiated procedure without prior publication, titled “Architectural Design Solution for Veleslavín Station”; role within the contest: legal advisory
- Legal advisory to Správa železnic (Railway Administration), a state organisation, during the preparation and throughout the course of the international architectural-urban design contest for the future form of the new main railway station in Brno, awarded jointly with the City of Brno; role within the contest: legal advisory
- Comprehensive organisation of the single-stage architectural design contest and the subsequent negotiated procedure without prior publication, titled “Prague East Terminal” Preparation of a major international architectural design contest for the future form of the first high-speed-rail terminal in the Czech Republic; role within the contest: legal advisory
- Comprehensive organisation of the single-stage architectural-urban design contest and the subsequent negotiated procedure without prior publication, titled “Railway Administration Headquarters” Preparation of a major international architectural-urban design contest for the future form of the new central headquarters of Správa železnic in Prague–Smíchov; role within the contest: contest secretary
- Comprehensive organisation of the two-stage architectural-urban design contest for a residential building within the “4 Dvory Residential Building” contest; role within the contest: contest secretary
- Comprehensive organisation of the landscape-urban-architectural design contest for the revitalisation of the “U hradeb” park along Horská Street, in close proximity to the “Ztracenka” garden and the “Folimanka” park; role within the contest: contest secretary
- Organisation of a competitive dialogue for the architectural-structural solution of the railway bridges below Vyšehrad; role within the competitive dialogue: secretary of the competitive dialogue
- Comprehensive organisation of a design workshop for a private investor The subject of the design workshop was a design of the new form of the historic Cibulka building in Prague so that it could be used in the future as a centre for paediatric palliative care; role within the design workshop: secretary of the design workshop
- Comprehensive organisation of the single-stage restricted design contest and the subsequent negotiated procedure without prior publication The subject of the design contest was a design of an extension of the Prague–Lipence Elementary School, to include a new kitchen, dining hall, and core classrooms; role within the design contest: contest secretary
- Comprehensive organisation of the international two-stage restricted design contest The subject of the design contest was a design of the new form of the Senovážné náměstí square in České Budějovice, historically one of the city’s most significant public spaces; role within the design contest: contest secretary
- Comprehensive organisation of the international single-stage restricted design contest and the subsequent negotiated procedure without prior publication — Vltava Philharmonic Hall. The subject of the design contest was the preparation of an architectural design for the future construction of a concert hall within a contemporary music centre that would meet global standards while reinforcing Prague’s reputation as a cultural capital and a symbol of Czech musical heritage; role within the contest: contest secretary

- Comprehensive organisation of the competitive dialogue for the urban and functional design of the area known as Papírové náměstí, which currently forms an inner periphery of the City of Liberec; role within the competitive dialogue: secretary of the competitive dialogue
- Comprehensive organisation of the two-stage architectural design contest and the subsequent negotiated procedure without prior publication, titled “Most Kosmonautů” in České Budějovice; role within the contest: contest secretary
- Comprehensive organisation of the design workshop focused on redesigning the ZEVO facility itself and proposing a landscape design to improve the industrial-natural environment of ZEVO Vráto České Budějovice and its wider surroundings; role within the design workshop: secretary of the design workshop
- Comprehensive organisation of the architectural design contest and the subsequent negotiated procedure without prior publication — “Access to the ORTY Mining Work” in the South Bohemian Region; role within the contest: contest secretary
- Comprehensive organisation of the international architectural design contest “New Alšova South Bohemian Gallery” and the subsequent negotiated procedure without prior publication; role within the contest: contest secretary
- Comprehensive organisation of the architectural design contest and the subsequent negotiated procedure without prior publication “Footbridge over the Vltava (České Budějovice Exhibition Grounds – SKP Area)”; role within the contest: contest secretary
- Comprehensive organisation of the single-stage design contest jointly commissioned by a state organization and a local self-governing authority for the design of the new Chomutov Terminal; role within the contest: contest secretary
