

**Mgr. Liliya Jung**

Associate

Liliya Jung specialises in the public sector, in particular public procurement, concession procedures, and advising on projects co-financed from EU operational programmes.

In the public sector, she specialises in providing comprehensive legal advice in connection with public procurement and concessions (both on the part of contracting authorities and economic operators), including advice on preparation of award criteria and organisation of procurement procedures and participation of economic operators in these procedures, preparation of expert opinions and analyses of the relevant issues.

As part of her practice, Liliya is involved in representing clients in proceedings before the Office for the Protection of Competition and in administrative proceedings.

Prior to joining our law firm in 2018, she worked at a law firm specialising in general practice.

Projects

- advising a contracting authority (municipality) on organisation of several IT procurement procedures
- advising a sectoral contracting authority (Czech electricity transmission system operator) in preparation and organisation of procurement procedures for reconstruction and completion of the transmission system
- advising a major automotive company in connection with participation in procurement procedures
- advising an EU fund subsidy recipient on compliance with the rules for subsidy recipients during a tender procedure
- advising an EU fund subsidy recipient in connection with levies for breach of budgetary discipline
- comprehensive support to a contracting authority after the initiation of review proceedings before the Office for the Protection of Competition
- legal and organisational support to a contracting authority in preparation and conduct of a preliminary market consultation and processing its results for procurement documentation
- legal advice to contracting authorities on sectoral public procurement procedures in the railway, air transport, energy and water sectors
- legal advice to contracting authorities in the field of ICT critical infrastructure projects
- legal advice to contracting authorities on public works contracts
- advising a subsidy provider in connection with the audit of projects co-financed by an EU operational programme
- preparation of major interpretative opinions on the Public Procurement Act
